A MASA MTS Membership provides the ultimate peace of mind at an affordable rate for emergency ground and air transportation service within the United States and Canada, regardless of whether the provider is in or out of a given group healthcare benefits network. If a member has a high deductible health plan that is compatible with a health savings account, benefits will become available under the MASA membership for expenses incurred for medical care (as defined under Internal Revenue Code ("IRC") section 213 (d)) once a member satisfies the applicable statutory minimum deductible under IRC section 223(c) for high-deductible health plan coverage that is compatible with a health savings account.

Emergent Air Transportation In the event of a serious medical emergency, Members have access to emergency air transportation into a medical facility or between medical facilities.

Emergent Ground Transportation In the event of a serious medical emergency, Members have access to emergency ground transportation into a medical facility or between medical facilities.

Non-Emergency Inter-Facility Transportation In the event that a member is in stable condition in a medical facility but requires a heightened level of care that is not available at their current medical facility, Members have access to non-emergency air or ground transportation between medical facilities.

Repatriation/Recuperation Suppose you or a family member is hospitalized more than 100-miles from your home. In that case, you have benefit coverage for air or ground medical transportation into a medical facility closer to your home for recuperation.
